VANILLA

PROVA, a world leader in vanilla extraction

Since 1946, PROVA's history has been intimately linked to vanilla. At first our sole specialty, it grew steadily along the years, making PROVA one of the major players in the vanilla extraction industry.

FORMS

CERTIFICATIONS

VANILLA EXTRACTS

PROVANILLE

provide the authentic taste of vanilla, along with application specific features:

OIL-SOLUBLE & THERMOSTABLE

for chocolate, bakery
and confectionery

MILK SOLUBLE

for ice cream
and dairy products

WATER SOLUBLE

for beverages
and water systems

VANILLA FLAVORS

PROVAROM

is the portfolio of our compound vanilla flavors: natural, WONF, natural and artificial, synthetic, offering different vanilla flavor profiles, tailored to each market's cultural specificities and legislation.

PROVANIL

is our technological and economical alternative to Vanillin (Methyl) and Ethyl vanillin, specially designed for all applications in high-fat systems and products undergoing heat exposure during the production process.

VANILLA SUGARS & POWDERS

VANILLA SUGAR

this iconic recipe - the very first product developed by PROVA - has evolved into a complete product line with different carriers, concentrations, tastes and even an organic version.

PURE VANILLA POWDER

ground vanilla beans of different qualities, particle sizes.

VANILLA SPECS

exist in two versions, exhausted vanilla seeds and exhausted vanilla beans powder.

ORGANIC RANGE

PROVA's flavorists created a comprehensive and original portfolio of products that are both organic and Fair Trade certified. Combining PROVA expertise in technology and formulation, this range of flavorings, which is available in powder and liquid form, fully meets the market's demand for naturalness, traceability and sustainability.
